[Contemporary Art Library](#) 15th Anniversary Benefit

2024
HAPPY NEW YEAR

居酒屋劇場(ふくしまの塩)

IZAKAYA Theatre (FUKUSHIMA SALT)

at [New Theatre Hollywood](#)

Hi. This is a personal invitation. My mother Miwako, 74 years old, a local chef from Fukushima, Japan, is coming to Los Angeles this holiday. She agreed to prepare a special Izakaya experience with us. Would you like to celebrate the New Year with her? Actually, running her own izakaya has been her dream for years! Support [Contemporary Art Library](#) by purchasing one of only 20 tickets for this special dining performance. [UNITED BROTHERS](#) will make sea salt using the water from the ocean in their hometown, Fukushima, where the nuclear disaster occurred in 2011. Its ocean became a site for recent international disputes because of the release of treated water. (The salt for this event will be tested by an NGO organization to prove its non-radioactive status.) This event will be a preview event at the highly anticipated new chapter of [New Theatre Hollywood](#), and part of the sale will support their project as well. (Ei)
